Serial Nos.

Part B for Nov 1949.

SUBJECT

D. M. — Instructions issued regarding Tour Notes of Ministers.

O. M. No 5768-77/C.B. 79-49-2 dt 15-11-1949.

To

The Secretaries to Govt.

11.12.49

WD 010861—GPB—25,000—18-9-50.

No 5/68-77/CB 79-49-2 Date/ 15-11-1949

OFFICIAL MEMORANDUM.

The attention of the Secretaries to Government is once again drawn to the instructions contained in Chapter IV of the Mysore Government Business Rules on the subject of tour notes of Ministers.

It has come to notice that the instructions laid down for following up points on which such action is necessary is not ~~being done~~ acted upon and ~~the progress~~ that progress reports are ~~is~~ not being watched regularly.

This is very important and it is requested that the Secretaries to Government will take timely and needful action to see that instructions in this behalf are scrupulously adhered to.

By Order,

Please refer to relevant paras in Council Business rules and put up to me how works are to be dealt with in this form. 29/10

Tour Notes of the Minister for Law & Labour in Bangalore and Mysore Districts for the month of August 1949 (Between 14th and 19th August' 49)

AUGUST 1949:

14th.

I left for Mysore by car in the morning and reached the place by 10a.

I observed that the places on either side of the main road at the 60th mile near Mandya Railway Station were quite barren and bleak. The Public Works Department may examine the feasibility of putting up plants in this area to make it more bright and attractive.

In the afternoon, I went round Mysore town and in the evening, I went to Krishnarajasagara with the Labour Commissioner to see to the arrangements in connection with the ensuing International Labour Conference to be held at Mysore during December 1949 - January 1950. The following suggestions in this connection were issued for being carried out by the concerned Departments immediately:-

(1) The furniture in the Railway Retiring Rooms at Mysore is bad and requires replacement. The bathrooms are not kept clean and tidy. The ugly tubs etc., have to be removed. An overhead tank is necessary so as to ensure supply of water all through the day. The Engineering Department may send up proposals for constructing an over-head tank of 5,000 gallons capacity. Flower pots may be put up in the corridor as also trellis work.

(2) The question of providing telephones to all the rooms in Hotel Krishnaraja Sagara may be considered.

(3) The Indian Restaurant should be made to provide electric cooking ranges and make use of power for cooking purposes. The premises may also have to be cleaned up and kept tidy.

(4) The question of manufacturing at least 100 instantaneous heaters for Government buildings at Mysore may be taken up and considered.

(5) The question of widening the road on the K.R.S. Dam may be considered. The Engineering Department may examine this and send up proposals.

(6)Proper arrangements may be thought of from now onto

to illuminate K.R. Sagara at the time of the I.L.O.Conference. It is not desirable to put up garish lights on the trees. Instead, beautiful garlands of lights may be put up. High pressure fountain in the middle of the island should be illuminated.

I was told that certain Offices like Sales Tax Office, Superintending Engineer's Office etc., are now in rented buildings. The question of locating these in Dr.Forster's Bungalow (Palace building) may be examined.

There are lots of complaints against the present water-supply to Mysore town. The question of improving the present system or water-supply should be taken up immediately by the Sanitary Department.

The question of shifting the Railway Offices from its present building to the old building and locating the Maharani's College there may be considered.

I camped in Mysore for the night.

15th:

In the morning after my radio talk on "Independence and Economic Progress" at Akash Vani, I hoisted the Flag at the Town Hall Maidan in connection with the Independence Day Celebrations and then returned to Bangalore by 12 Noon.

In the afternoon, at 3 P.M., I left for Sadahalli village in Devanahalli taluk with the Deputy Commissioner Sri K. Seshagiri Rao.

On the way, I went into Hunsamaranahalli village, visited the mutt and Addressed the gathering in connection with the Independence Day Celebrations.

On reaching Sadahalli village, I met the local people and the local officers. I first paid a visit to the temple and offered worship. After opening the new Primary School building at the place, I presided over the Independence Day Celebrations. The villagers of this and the surrounding villages presented an address to me making the following requests:-

i. Electrification of Sadahalli, Illthore, Jogahalli, Chowdanahalli Agrahara, Kannamangala, Tharamanahalli, Nagamangala, Heggenahalli, Pujanahalli, Meenukunte, Hosur, Dodjala, Huthanahalli and Chikjala villages.

ii. Inter-communication road to this village from the 16th mile on the Bangalore-Chiknagalapur road.

iii. Immediate repairs and renovation of Sadahalli tank.

iv. Sanctioning a drainage scheme to the village.

v. Supply of agricultural implements, manure, seeds, etc., to the Sri Venkateswaraswmi Co-operative Society at Sadahalli.

vi. Housing for Harijans.

vii. Sanctioning a Hospital to Sadahalli village to serve the needs of some of the round about villages, for which one Sri R. Govindarajan has agree to give a donation.

viii. Taking up this village as a Model village.

These are modest and reasonable requests which may be complied with as early as possible. As regards the road to Sadahalli village, this is very necessary. In fact, I travelled in the gravel road put up by the villagers and I think it is enough if this road is improved and made pucca.

I returned to Bangalore in the night.

16th:

I left for Hosur (Madras Presidency) at 12 Noon with the Director of Agriculture and reached the place by 3 P.M. after hearing representations on the way.

Hebbagodi:- The villagers wanted electricity to their village and power for irrigation pumps. This request may be considered. They also represented that they find it very difficult to contact the Superintendent, K.G.F. Power and Light to whoe circle this village has been added and that their village might be added on to the jurisdiction of the Superintendent, Bangalore Power & light. This may be examined.

Attibele:- The villagers represented that after the establishment of the Multi-purpose Co-operative Society at the place, they were not getting adequate quota of food stuffs as was being supplied to the Government depot. This request needs favourable consideration.

The villagers represented that they have been agitating for some time past for putting up ornamental lights to the stone arches put at the border of the Mysore State and that though the estimate for the work has been prepared by the Department, the work has not been taken up

up so far. The Chief Electrical Engineer will / please take action to put up lights on this entrance. These arches may be provided with suitable dome lights - one under main arch and one on each of the two side pillars. "Gandabherunda" at the top is to be floodlit on both sides. Immediate action may be taken on the lines indicated in my note already put up (T.614-616 dated 18-8-1949).

The villagers of Jigla, Anekal taluk prayed for grant of electricity to their village. The Chief Electrical Engineer may examine this and take suitable action in the matter.

On reaching Hosur, I met Sri Benjamin, Superintendent of the Hosur Farm who took us round the Farm. I was very much impressed at the activities of this Farm. The Superintendent incidentally mentioned to me that this Farm would be improved and the standard raised only after the grant of electricity from this Government. I told him that the question of grant of power to Hosur is under the active consideration of this Government.

I returned to Bangalore in the night.

19th:-

In the evening, I proceeded to Bidaraguppe village in Anekal Taluk with the Deputy Commissioner Sri Seshagiri Rao, hearing representations at the following villages on the way.

Hebbagodi:- The villagers represented that they wanted a Police Station to be established at the place. They said that there was one station formerly. This request may be examined and reconsidered by the Ministry of Home Affairs.

Chandapura:- The following requests made by the villagers may be considered favourably:-

i. Sanctioning a Middle School.

ii. Establishment of a Police Station.

iii. Providing a Hospital at the place, or at least weekly visits of Doctors to be arranged.

iv. Providing additonal electric lights required

(cont

Yadavanahalli:- The villagers wanted electricity to be given to their village and power for irrigation. The Chief Electrical Engineer will please take action to have the estimates prepared. The Deputy Commissioner was instructed to obtain the consent of the Village Panchayet.

Indlable:- The villagers prayed for sanctioning the drainage scheme to the village at Government cost. This may be looked into by the Development Committee.

I reached Bidaraguppe by 6-30 P.M. and met the local officers, non-official gentlemen and other leading people at the place. I paid a visit to the Sri Laxminarayanaswami temple and offered worship. I heard representations which were these:-

1. Putting up a compound wall to the temple and adding a kitchen block to the temple for the use of the devotees.
2. Grant of electricity to this place.

These two requests may be considered early by the concerned Ministries. As regards electricity, the Deputy Commissioner was asked to obtain the resolution of the village panchayet and send the same to the Electrical Department for taking further action.

I observed that the road to this village which was on the tank bund was very narrow, and there were no guard stones either. The road may be widened and guard stones put up on either side.

I returned to Bangalore and then proceeded straight to Kantharavalya village, Bangalore South Taluk in the night and returned to Bangalore after switching on the electric lights at the village. The following requests were made to me at this place which deserve early consideration.

1. Sanctioning one more drinking water well.
2. Acquisition of the old gavatana sites for village extension.
3. Sanctioning a food depot to this village.
4. Nayandahalli Flag Station to be made a pucca Railway Station.
5. Selecting this as a model village for further improvement.

The lights put up at this village were neither bright nor enough.

(contd)

It appears the villagers have taken only seven lights for the whole village which is not enough. I have issued instructions to the Deputy Commissioner (Urban) and the Chief Electrical Engineer for putting up three more light to this village and to see that powerful lights are put up.

"C O P Y"

Secretary to Government.
Education Department.
